näeme!

Librarian = Information specialist

- Competences of librarian
- Individual information skills courses
- IT-advisory platform for libraries
- Information literacy skills programme in general school curricula

Library = Learning Centre

- Libraries need a evangelists
- Librarian is like a theatre producer
- Libraries are learning centres
- Cooperation between different types on libraries

**Library = an open space that offers
privacy**

Library = Meeting place

Library = Part of society, part of economy?

- Information tools renting/lending
- Focus must be on content not vehicle
- Joining entertainment with content
 - 3D-printer (creativity), Wii (sports)
- More clever library apps

Kaie Viigipuu-Kreintaal in newspaper, illustrating an absurde situation, where libraries can home-lend some DVDs and not others.

HASARTMÄNGUMAKSU
NÕUKOGU

“Olgugi raamatukogu konservatiivne infokogumise paik, on see avatud uutele lahendustele kõigis valdkondades. Mingis mõttes ongi raamatukogu Eesti kvintessents: mis sobib raamatukogus, sobib ka kogu Eestis.

Although library is conservative information gathering place, it is open to new solutions in all areas. In some sense, a library is a quintessence of Estonia: that is suitable for the library, is also suitable for the whole of Estonia.

Igor Kotjuh, Estonian writer
